NEW AT EAGLECREST BOOKS

We have just completed our new **Math Literacy Collection**. This collection consists of 6 copies each of 25 carefully leveled books. These books provide children with real life stories that illustrate the role that math plays in the world around us.

Discussion questions are provided at the beginning and end of each story. Together with the beautiful photographs in each book, these questions will help to engage children and encourage them to share experiences and ideas.

A book of black line masters is included in this kit as well as a set of 100 wooden counters. These can be used to help reinforce math and literacy concepts.

This collection is not a program. These books are to be used together with a variety of other books and materials to help support each child's reading and mathematical progress.

See pages 3 and 4 for more information.
